- Computer Science

PERSONAL PROJECTS

Blogging App
- Developed a blogging application using **React.js** (frontend) and **Firebase** (backend). Ensured a clean, responsive UI with **Tailwind CSS**, optimizing performance and user experience.

Meme Generator App
- Built an interactive meme generator using **Next.js**, leveraging **Tailwind CSS** for a modern, responsive design. Integrated dynamic image manipulation and sharing features.

Weather App
- Created a weather application using **React.js** with a real-time **Weather API**. Designed a sleek, user-friendly interface with **Tailwind CSS**, providing accurate weather updates.

Quiz App
- Developed a **React.js**-based quiz application, dynamically fetching quiz data from an API. Focused on an engaging user experience with interactive features and a responsive layout.
